Programming languages: java, C#, .net, python, C, C++, JavaScript

Spring Boot framework

Java database connectivity

Databasemanagement: Oracle, MySQL, MongoDB

Pandas library

Git version control

Java annotations

Front-end development

Certifications

Full Stack Certification IBM Cloud

Artificial Intelligence Intern from Refinement software solutions

HTML CSS Bootcamp from Lets upgrade

Arunkumar Murugan

IT MANAGER

About me

I am a Computer Applications graduate with experience in Java, Python, and backend development using Spring Boot. I also have knowledge of HTML, CSS, and JavaScript for building websites. During my AI internship, I worked with real-time data and learned the basics of machine learning. I'm also familiar with C, C++, and databases like Oracle, MySQL, and MongoDB. I enjoy learning new technologies and want to grow as a software developer.

Experience

IT AI Intern

Refinement Software Solutions Pvt Ltd · Coimbatore June 2025 – June 2025

- Worked on real-time data processing and machine learning models
- Built classification/regression models using Scikit-learn and TensorFlow

Projects

Question Management System (Full Stack Web Application), I developed a full-stack quiz management web application where admins could add, edit, or delete questions, and users could take quizzes and view their results. The system was built using Java, Spring Boot, HTML, CSS, JavaScript, and MySQL, and it communicated through RESTful APIs

Data Visualization Dashboard

Power BI, Excel

Created interactive dashboards to analyze sales and user performance data. Used charts, KPIs, and filters to present clear insights and support business decision-making.
